Subject: Annual Performance Review

Dear Professor Monrose,

I have completed the review of your performance as a faculty member of the School of ECE over the past year, considering a number of factors including teaching, student advising, scholarship, research, and service.

I am delighted to report that your performance has outstanding across all facets. I would like to highlight and commend the following specific achievements:

- **Productive scholarly contributions and research**, demonstrated by five conference papers published in leading venues, three additional papers submitted, and a provisional patent filed.
- **Leadership of the research activities** for the Center for Cyber Operations Enquiry and Unconventional Sensing (CEOUS) center.
- **Dedicated advising and mentoring** of two post-doctoral researchers, seven doctoral students (one of whom graduated this year), one MS student, and three undergraduate students, as well as several students in the CEOUS center. Congratulations on the recognition of your research group, showcased by the DARPA Program Manager at DEFCON'24 and in two DARPA Weekly Activity Reports, as well as receiving two "Star Patch" awards to recognize your teams' research and findings!
- **Involvement in two major active research grants** from DARPA and the Navy, along with the submission of two collaborative research proposals.
- **Outstanding teaching contributions**, including a perfect CIOS score for the new graduate course you created and the successful deployment of a virtualized educational platform for teaching hands-on cybersecurity topics.
- **Contributions to service activities** both within Georgia Tech and externally, including serving on Program Committees for two ACM conferences, the "Test of Time" Awards Committee, participating on the ECE Graduate Student Recruitment Committee, several faculty recruitment subcommittees for SCP, and serving on multiple thesis committees.

Based on the package you submitted, here are your annual review ratings, as per rubric outlined in the School of ECE Standards for Faculty Annual Review.

Research: 5
Teaching: 5
Service: 4

Congratulations on a successful year, and I look forward to supporting your activities in the future. Your dedication and contributions are invaluable to the School of ECE's mission and success.
